Parent Permission for Holistic Student Assessment

We are asking your consent for your child to complete a survey entitled: Holistic Student Assessment (HSA), being administered to students this school year. Pursuant to the Protection of Pupil Rights Amendment (20 U.S.C. § 1232h), it is necessary for the District to obtain parental consent before your child can participate in the survey. Your consent and your child's participation are completely voluntary and your child may withdraw at any time.

The HSA profile provides teachers, parents and student support staff with a snapshot of a student's long-term-socio-emotional state. The profile provides information on both the student's strengths (how well the student is able to cope with stressful factors in the environment), and on the student's struggles (the extent a student cannot control the body, mind and cognition). These profiles can be especially useful in identifying those students who are struggling in a way that may not be immediately obvious to teachers.

A more detailed description of the survey, the survey, and the approximate date on which the survey will be completed by students, is posted on our school website under the parent resources link.

If you wish to allow your child to participate in the survey, please complete the consent form below.
